

Reliable Automotive Sensors & Diesel Aftertreatment Parts

SHR Autoparts supplies replacement NOx sensors, DEF / AdBlue components, fuel system parts, relays and level sensors for distributors, workshops, fleets and B2B importers.

Who We Are

SHR Autoparts is a B2B supplier focused on automotive electronic sensors, diesel emission system components, and replacement parts used across passenger cars, commercial vehicles, heavy-duty trucks, agricultural machinery, construction equipment and industrial diesel engines.

Core Focus

- NOx sensors for SCR aftertreatment systems
- DEF / AdBlue level sensors and dosing parts
- Fuel injectors, fuel level sensors and temperature sensors
- EV DC relays and automotive sensing components

Customer Value

Stable sourcing, OEM cross-reference support, practical technical communication, and wholesale-ready product documentation for global buyers.

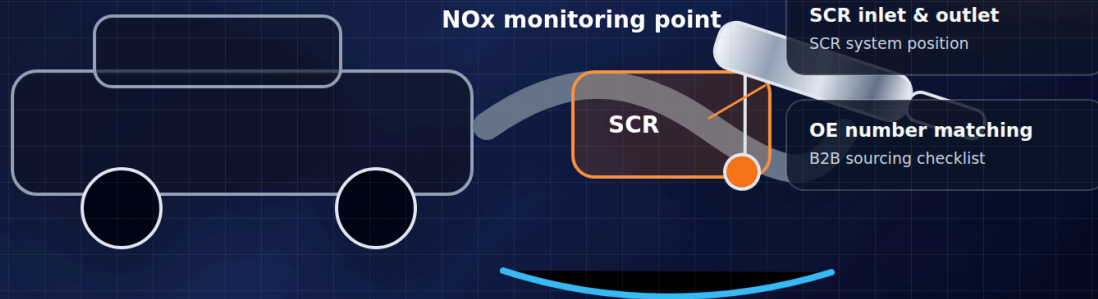

What We Supply

Mercedes-Benz NOx Sensor

BRAND NOx REFERENCE

Truck and diesel SCR aftertreatment sensor sourcing reference

Mercedes Benz SCR application reference

Diesel Aftertreatment

NOx sensors, SCR monitoring parts, DEF / AdBlue components and related emission system references.

Automotive Sensors

Fuel level, fluid level, temperature, proximity and capacitive sensing solutions for replacement and sourcing programs.

Fuel & Powertrain

Fuel injectors and engine-related replacement components for professional repair and aftermarket distribution.

EV & Electrical

High voltage DC relays and selected electrical components for EV and industrial applications.

Why Customers Work With SHR

01

Cross-reference Support

Help buyers compare OE numbers, connector styles, cable length and application fitment before ordering.

02

B2B Sourcing Workflow

Support quotation, bulk inquiry, replacement matching and product documentation for importers and distributors.

03

Technical Communication

Use clear diagrams, application notes and product photos to reduce wrong-part risk.

04

Global Buyer Orientation

English product pages, RFQ flow, WhatsApp / email contact and export-friendly communication.

Application Coverage

Segment	Examples	Typical Parts
Heavy-duty trucks	Mercedes-Benz, Volvo, Scania, MAN, DAF PACCAR, IVECO, Hino	NOx sensors, SCR parts, DEF components
Diesel engines & machinery	CAT, Cummins, John Deere, CNH, JCB, Kubota, DEUTZ	NOx sensors, exhaust temperature sensors, level sensors
Passenger & light commercial	Ford, Dodge Ram, Hyundai, Isuzu, GM and other platforms	NOx sensors, fuel system parts, automotive sensors
EV / industrial electrical	Electric vehicles and DC power systems	High voltage DC relays and electrical components

How to Request a Quote

Information Needed

- OE / OEM part number
- Vehicle or engine model
- Photos of connector and label
- Quantity and destination country
- Any packaging or branding requirements

Contact

Email: sales@shrautoparts.com
Phone / WhatsApp: +86 137 6157 1029
Website: www.shrautoparts.com

For faster matching, send the part number and clear photos of the original sensor or component. SHR will help confirm replacement options and quote based on quantity.
